

Verbs for Drills

Randomly pick verbs off this list to plug into your drills. A few notes:

- ◆ We suggest you do **not** write English translations on this sheet. In fact, don't even look up their meanings. Learn to drill with verbs just by their sound, not their meaning, so you focus on the grammar.
- ◆ Type I verbs are listed first, then Type II. Within each set, verbs that start with a vowel are listed at the bottom, just to help you with those at first (d', etc.).
